

Revenue System

 Per-Meter Subscription
– ₹X/month/meter from
SEGs

 Utility Intelligence
Dashboard – Premium SaaS
analytics & insights

 API Licensing to OEMs –
Licensing technology to
smart meter manufacturers

 Cross-Utility Expansion
– Scalable to water, gas,
and solar infrastructure

Customers & Market

Target Customers

- **Smart Energy Grids (SEGs) & Urban Cooperatives:** Need for theft-proof billing & transparency.
- **Private Grids & Industrial Parks:** High losses → strong ROI from adoption.
- **Smart Meter Manufacturers:** Can embed CRYPTHERA for built-in fraud prevention.
- **Future Expansion:** Large-scale DISCOM adoption once validated at SEG/private grid level

Market Opportunity

Competition / Unique Value Proposition

Feature	Secure Meters	Genus Power	L&T E&A	CRYPTETHERA
Tamper-proof readings	✗ Can still be bypassed	✗ Limited protection	✗ Needs manual checks	✓ IoT data signing prevents tampering
Real Time Theft detection	⚠ Delayed	⚠ Often late	✗ Relies on audits	✓ AI flags theft in real time
Billing transparency	✗ Records can be altered	✗ No shared truth	✗ Internal only	✓ Blockchain ledger, one truth for all
Built for Rural & Urban India	⚠ URBAN OPTIMIZED	⚠ URBAN OPTIMIZED	⚠ LIMITED	✓ APPLICABLE FOR BOTH
